Product Variant Availability

Myrtle Equities offers all of its indexes in 3 different weighing schemes, which include (i) Market Capitalization Weighted, (ii) Stock Price Weighted, and (iii) Equal Weight. Each one of these weighing formats changes the overall structure of the index portfolio and every constituent's weight within said portfolio. Additionally, the Market Cap and Price Weighing Schemes are offered in the **PRISM** sub-variant which offers an industry leading approach to index portfolio rebalancing methodology. For more information about Myrtle Equities Index Methodologies, please see our Regulatory page [here](#). For more information regarding PRISM, please contact us through our website.
